SPECIAL USE PERMIT **Information and Procedures**

A special land use is one that may be appropriate in certain locations but requires additional review and oversight to ensure that there would be no adverse effects to the property or the surrounding neighborhood. These uses are regulated by Section 1281.05 “Special Land Uses” of the Zoning Ordinance, and only those uses listed in the ordinance are subject to a permit.

BASIS FOR DETERMINATION

Special Use Permits are subject to review and approval by both the Planning Commission and the City Commission. Each body will review the request to determine if it complies with standards for approval outlined in Section 1281.05(c) “Basis for Determination”:

- a) The use will be harmonious with and in accordance with the general objectives of the Master Plan.
- b) The use will be designed, constructed, operated and maintained so as to be harmonious and appropriate in appearance with the existing or intended character of the general vicinity and will not change the essential character of the neighborhood.
- c) The use will not be hazardous or disturbing to existing or future neighboring uses.
- d) The use will be a substantial improvement to property in the immediate vicinity and to the community as a whole.
- e) The use will be adequately served by essential public facilities and services, such as streets, highways, police and fire protection, drainage, refuse disposal and schools, or the persons or agencies responsible for the development shall be able to adequately provide such services.
- f) The use will not create excessive additional requirements at public cost for public facilities and services and will not be detrimental to the economic welfare of the community.
- g) The use will not create activities, processes, materials, equipment or conditions of operation that will be detrimental to any person, property or the general welfare by reason of an excessive generation of traffic, noise, smoke, fumes, glare, vibrations or odors.
- h) The use will be consistent with the intent and purpose of this Zoning Code.

PRE-APPLICATION RECOMMENDATIONS

Prior to submitting the special use permit application, it is recommended that an applicant consult with the Planning Department staff to discuss the proposed use and application requirements. It is further recommended that the applicant contact the Inspections Department at (269) 966-3382 to discuss any possible requirements of the building, plumbing, mechanical, electrical, and/or fire code. Additionally, it is recommended that you contact your local Neighborhood Planning Council as well as adjacent property owners to discuss your request prior to submitting this application as you may be able to minimize concerns that would otherwise be addressed during the Public Hearing.

SUBMITTAL REQUIREMENTS

Similar to the process at the Planning Commission meeting, the request is placed on the City Commission agenda as a “Resolution”, and opportunity is given for public comment on the request. The City Commission has the ability to postpone a decision or take action on the request by way of approval, approval with conditions, or denial of the request based on the standards listed above in Basis for Determination.

The applicant or a representative is highly encouraged to attend both meetings to present your request and answer any questions.

ADDITIONAL CONSIDERATIONS

Please ensure that the application fully details the proposed use that warrants the special use permit. The approval of the special use permit is based upon the contents of the submitted application, including but not limited to the nature of the use as outlined in the application. Any future proposed change must be reviewed with the Planning Department to ensure consistency with the approved special use permit, and may be subject to approval of a revision of the special use permit by the Planning Commission and City Commission.

All necessary approvals and any required permits shall be obtained from the appropriate agencies, including but not limited to the State of Michigan, Department of Public Works, and Inspections Department prior to issuance of a Certificate of Occupancy.

Pursuant to Section 1281.05(A)(5) Certificates of Occupancy for special uses shall be valid for a period established by the City Commission or as long as the use is established and maintained in conformity with the plans submitted and approved. Occupancy permits shall expire after one-year if the use is not under construction or maintained. For good cause shown and upon written application, the Planning Commission may extend a special use permit for six-months.

QUESTIONS

Please contact the Planning Department at (269) 966-3320 if you have any questions regarding special land uses, the application, or other requirements.
